Top Products by Profit

This table shows the products that contribute the most absolute profit in dollars to the business.

How to read it:

These are the “revenue drivers” of the company. A higher gross profit means the product has a larger direct impact on total earnings, regardless of its efficiency or margin rate.

Product	Profit	Margin %
Jack Daniels No 7 Black	\$1370292.28	26.86%
Ketel One Vodka	\$1249613.8	29.59%
Capt Morgan Spiced Rum	\$1235310.84	27.6%
Absolut 80 Proof	\$1124687.0	24.78%
Tito's Handmade Vodka	\$1102945.56	22.89%
Kendall Jackson Chard Vt RSV	\$875616.52	37.64%
Grey Goose Vodka	\$863060.2	25.5%
Tanqueray	\$764820.06	28.97%
Jim Beam	\$691369.7	28.39%

Product	Profit	Margin %
Dewars White Label	\$687355.54	31.4%

Top products by Margin

This table highlights the most efficient products in the portfolio in terms of profitability relative to revenue.

How to read it:

These products generate the highest return per dollar sold. They are not necessarily the biggest revenue drivers, but they are the most efficient from a profitability perspective.

Product	Profit	Margin %
Viberti Chard	\$257.06	83.4%
Jack Daniels Tennessee Fire	\$52951.36	74.92%
R M Woodbridge Moscato	\$752.43	72.66%
Twisted Cab Svgn Cal	\$697.68	71.86%
Our Daily Red Cab Svgn	\$412.56	71.19%
Merriam Vyds Rose of Pnt Nr	\$5437.04	69.38%
Murphy-Goode Pnt Nr	\$785.2	69.05%
Circadia Cab Svgn Napa Vly	\$51.02	68.04%
Scala Dei Negre Priorat	\$532.64	67.63%
Ch Pagodes de Cos 10 Brdx	\$67.53	67.54%

Top Brands by Profit

This table aggregates performance at the brand level, combining all products under each supplier.

How to read it:

Brands represent suppliers or manufacturers. This view helps identify which partners contribute most to overall profitability and are strategically important for business stability.

Brand_id	Product	Profit	Margin %
1233	Jack Daniels No 7 Black	\$1370292.28	26.86%
3545	Ketel One Vodka	\$1249613.8	29.59%

2663	Dewars White Label	\$687355.54	31.4%

Top Brands by Margin

This table highlights brands that generate the highest profitability efficiency.

How to read it:

These brands may not necessarily generate the most total revenue, but they maximize profitability per dollar sold. They are often candidates for premium positioning or strategic growth.

Unprofitable Products

This table identifies products that are generating negative gross profit, meaning their cost structure exceeds their revenue contribution.

How to read it:

These products are financially unsustainable. They either need pricing adjustments, cost renegotiation, or removal from the portfolio to prevent continued losses.
